TRANSFER OF OFFSITE ACCESS PERMITS FOR OU 3 REMEDIAL INVESTIGATION FIELD WORK - WSB-203-93

Attached are access permits obtained for the Operable Unit No. 3 (OU 3) offsite Remedial Investigation field work. As OU 3 field work progresses and involved landowners are identified, more permits will be transferred to your office for signature and archiving. Two original copies of each owner's permit are attached; one signed original should be returned to Michael Guillaume of my staff for return to the landowner.

Under Part 39 of the Interagency Agreement, the Department of Energy is required to provide a copy of the signed agreements to the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH). After obtaining all access agreements for the OU Remedial Investigation, a copy of each permit will be provided to the regulatory agencies.

Permits for the following landowners are attached:

- | | |
|--|---|
| Donald J., Donald D., and Mary I. Ryan | Pope Properties |
| Schaaf and Company | Regional Transportation District |
| Interlocken Ltd. | Stephen E. Paul, Robert Nurisso, and Edward M. O'Reilly and Sara E. O'Reilly 1991 Trust |

Also attached is a copy of the letter to William K. Somerville confirming his verbal agreement to allow access.

If you have any question regarding these permits, please call M. Guillaume at 966-8557.

USE AGREEMENT FOR OFFSITE SAMPLING - MG-007-93

Dear William:

As discussed in our telephone conversation of January 25, 1993, this letter confirms your verbal agreement to allow the Department of Energy (DOE), and DOE representatives, access to your property south of 80th Avenue in the NW 1/4 of NE 1/4 of Section 32, T.2 S. R.69 W. The purpose of this access request is to obtain a surface soil sample. This surface soil sample supports an environmental study currently being conducted by DOE. This letter contains information on the environmental study, a description of the sampling methodology and a map showing an approximate location for the sampling.

If the current warm weather holds, we will sample your property during the first part of February. If you should have further questions, please feel free to call me at 966-8557.

Sincerely,

M. Guillaume, OU 3 Manager
Remediation Programs Division

Administrative Record

OU 3 RFI/RI SAMPLING ACTIVITY DESCRIPTIONS -WILLIAM K. SOMERVILLE

Operable Unit 3 (OU 3) is defined as the area offsite from the Rocky Flats Plant. The planned OU 3 sampling activities are detailed in a Work Plan that outlines the purpose, objectives, rationale and methods used to evaluate the presence or absence of contamination within OU 3. The Work Plan is based on the requirements of the Interagency Agreement (IAG) between the Department of Energy (DOE), the Environmental Protection Agency (EPA) and the State of Colorado Department of Health (CDH). This Work Plan is publicly available and information concerning the location of an available copy can be found by calling EG&G Community Relations at 966-2986

OU 3 sampling activities began in April, 1992 and are scheduled for completion by spring of 1993. A Final Report which details the results and conclusions from this study is scheduled for completion in 1994.

The map, attached to this correspondence, shows the location of the sampling activity. Field adjustments could be made at the time of sampling to adjust specific sampling locations. The sample location will be surveyed prior to actual sampling.

Sampling activities will not adversely effect your property. OU 3 sampling activities on this property involve collection of a surface soil sample. The collection of surface soil samples involves removing one quarter to one half inch of surface soil from a 3 X 3 inch square in 25 locations within a ten acre plot. The approximate ten acre plot location is shown on the map.

Sampling Location: PT 15692
NW 1/4 of NE 1/4 of Section 32
T.2S. R.69W.

Owner: William K. Somerville

West 80th Avenue
